Llama 2: Open Foundation and Fine-Tuned Chat Models

Hugo Touvron, Louis Martin, Kevin Stone, Peter Albert, Amjad Almahairi, Yasmine Babaei, Nikolay Bashlykov, Soumya Batra, Prajjwal Bhargava, Shruti Bhosale, Dan Bikel, Lukas Blecher, Cristian Canton Ferrer, Moya Chen, Guillem Cucurull, David Esiobu, Jude Fernandes, Jeremy Fu, Wenyin Fu, Brian Fuller, Cynthia Gao, Vedanuj Goswami, Naman Goyal, Anthony Hartshorn, Saghar Hosseini, Rui Hou, Hakan Inan, Marcin Kardas, Viktor Kerkez, Madian Khabsa, Isabel Kloumann, Artem Korenev, Punit Singh Koura, Marie-Anne Lachaux, Thibaut Lavril, Jenya Lee, Diana Liskovich, Yinghai Lu, Yuning Mao, Xavier Martinet, Todor Mihaylov, Pushkar Mishra, Igor Molybog, Yixin Nie, Andrew Poulton, Jeremy Reizenstein, Rashi Rungta, Kalyan Saladi, Alan Schelten, Ruan Silva, Eric Michael Smith, Ranjan Subramanian, Xiaoqing Ellen Tan, Binh Tang, Ross Taylor, Adina Williams, Jian Xiang Kuan, Puxin Xu, Zheng Yan, Iliyan Zarov, Yuchen Zhang, Angela Fan, Melanie Kambadur, Sharan Narang, Aurelien Rodriguez, Robert Stojnic, Sergey Edunov, Thomas Scialom

In this work, we develop and release Llama 2, a collection of pretrained and fine-tuned large language models (LLMs) ranging in scale from 7 billion to 70 billion parameters. Our fine-tuned LLMs, called Llama 2-Chat, are optimized for dialogue use cases. Our models outperform open-source chat models on most benchmarks we tested, and based on our human evaluations for helpfulness and safety, may be a suitable substitute for closed-source models. We provide a detailed description of our approach to fine-tuning and safety improvements of Llama 2-Chat in order to enable the community to build on our work and contribute to the responsible development of LLMs.

Llama2 is a software model that is used for language learning and machine learning research. It is an open-source implementation of the Llama model, which is a neural network-based language model that can be used for tasks such as text generation, text classification, and language translation.

What should I do when my computer shows up with this screen?

When your computer displays a blue screen, it typically indicates a software or hardware issue that needs to be addressed. Here are some steps you can take to resolve the issue:

1. Restart your computer: Restarting your computer will clear any temporary files or issues that may be causing the blue screen error.
2. Check for updates: Ensure that your computer is up to date with the latest software and drivers. This can help resolve issues related to outdated software or hardware compatibility.
3. Run a system scan: Use your computer's built-in diagnostic tools or a third-party antivirus and malware scanner to check for any issues that may be causing the blue screen error.
4. Contact technical support: If the issue persists after following these steps, you may need to contact your computer manufacturer's technical support for further assistance.
5. Backup your data: Make sure to back up your important files and data to an external storage device or cloud storage to avoid losing any important information in case the issue cannot be resolved.

What is wrong with my bike? How can I fix it?

In the image, there is a bicycle with a flat tire. To fix this issue, you should first check if the tire is punctured or if there is a problem with the valve. If the tire is punctured, you can use a bicycle pump to inflate it, and then patch the hole with a tire repair kit or a piece of inner tube. If the valve is the issue, you can replace it with a new one or use a bicycle valve tool to remove the old one and insert a new one. Once the tire is repaired or replaced, you can reattach the wheel to the bicycle frame and continue riding.

Design a slogan for this product

A slogan for this product could be "Bring a touch of whimsy and charm to your space with our adorable Totoro and rabbit figurines." This slogan highlights the unique and charming design of the figurines, which are inspired by the popular animated characters from the movie "My Neighbor Totoro." The slogan emphasizes the appeal of these figurines as decorative items that can bring joy and a sense of nostalgia to any space, whether it's a home, office, or store.
